corresponding_author@email.address

We would like to ask you to prepare your abstract as one A4 page Word document according to this example. The body of the abstract should be written in Times New Roman font, 12pt size (the title in 16pt size). The text may contain small tables or figures, but colours should be avoided since the abstract will be reproduced in black and white version only.

The Word document should be called by the surname of the contributing author. The abstract should be sent as an e-mail attachment to dyproso@fzu.cz, with the surname of the contributing author written also in the subject field.

In exceptional cases¹, abstracts can be prepared in a strictly identical style using another text editor. In this case, authors should send their original file as well as a camera-ready Postscript or PDF file.
